

ARISE ELEVATOR

Rise above expectations

OTIS

Versatile and cost effective

We believe everyone traveling the world, commuting to work or living their daily life is entitled to a safe, comfortable and reliable ride. To Otis, those features are our core values. With the Arise system, we focus on delivering an efficient and high-quality solution for your customers, tenants or passengers that changes how they experience your building.

OTIS ARISE OVERVIEW

| | |
|---------------|--------------------------|
| Maximum rise | 130 m |
| Speed | 1 - 2.5 m/s |
| Duty load | 800 kg, 1000 kg, 1050 kg |
| Maximum stops | 36 |

A reliable way to move your world

At Otis, we go above and beyond code standards to ensure the Arise elevator stands the test of time, delivering more value for your building.

01. PureMotion high efficiency machine

02. Mini machine room

03. LED lighting & standby mode

04. Stringent door qualification

05. Otis qualified safety gears

06. Otis qualified buffers

WORLD-CLASS TESTING & QUALIFICATION

Recognized as worldclass by code authorities, supplier feedback and internal product benchmarking, our product qualification processes include:

- Exposure to harsh environmental conditions
- Advanced system dynamic tests
- Life cycle tests with a focus on safeties, governors and buffers

TOUGH LANDING DOORS

Our landing doors go through two stringent impact tests to cover everything from day-to-day passenger interactions to more intense cart or luggage impacts, exceeding EN 81-20 elevator code requirements.

PUREMOTION MACHINES

Our high-efficiency permanent magnet PureMotion machines meet Otis' strict engineering and quality control standards, getting passengers to their destinations smoothly and reliably.

Safety and peace of mind

Since the invention of the Otis safety brake, safety has been a core promise of everything we do. So it wasn't enough for us to rely on basic safety code standards. We created our own set of even more demanding guidelines surpass global standards – the Otis Worldwide E3 policy. The parts and components of the Arise elevator undergo a battery of performance, safety and lifetime qualification testing that includes more than 50 critical safety tests during the manufacturing process.

TURNING DATA INTO ACTION

As one of the first elevator companies to use big data and predictive analytics to improve performance, we're experts at getting the most out of emerging technology. Our digital ecosystem uses the "internet of things" and mobility tools to predict and diagnose issues before they occur. All of this to stay ahead of your needs and to deliver a seamless passenger experience.

A tailored solution for every lifestyle

From office buildings to condominiums and everything in between, having an elevator that completes your look is essential for your project and brand. With options such as hairline stainless steel and soft LED lighting, the Arise elevator will make your building stand out from the rest.

+ MODERN DESIGN

Clean tasteful design in every detail enhances your space.

+ STYLISH CEILINGS

Variety of ceilings with energy-efficient LED lighting.

+ DURABLE FIXTURES

LED full-scale displays with stainless steel faceplates.

Our selection of ceilings, handrails and other fixtures is designed to harmonize with and enhance any building project.

Let's build something unique, together

For more than 160 years, Otis has set the gold standard in the industry. But leading the industry means more than being first – we improve what we do each and every day.

From helping commuters with a reliable daily route to guiding travelers to new adventures, we help more than 2 billion people get to their next destination each day. And we care for every single one.

We take the experience we've gained from building and installing approximately 2.6 million Otis elevators and escalators in nearly 200 countries and use it to continually build our strengths to move our products toward higher standards.

ARISE ELEVATORS COMPLEMENT OTHER VERSATILE OTIS PRODUCTS

GEN2 ELEVATORS

High-performance elevator series for residential and commercial buildings.

LINK & CROSSLINK

Escalators and moving walkways for retail buildings, airports and metros.

SKYRISE ELEVATORS

Elevators for high-rise buildings.

Built on a legacy of innovation, Otis invented the elevator safety brake in 1853, giving rise to the modern city and forever changing how people connect and thrive in a taller, faster, smarter world. Today, we're the world's leading elevator and escalator manufacturing, installation and service company. We can be found in many of the world's most recognizable buildings, as well as the busiest transportation hubs and retail centers – we're everywhere people are on the move. With a global maintenance portfolio of more than 2 million elevators and escalators, approximately 2 billion people are moved by our products every day. Headquartered in Connecticut, USA, Otis is 68,000 people strong, including 40,000 field professionals, all committed to meeting the diverse needs of our customers and passengers in more than 200 countries and territories worldwide.
